Akar College of Professional Studies BBA

BBA course at our institute is full time four years management graduation degree course. This degree is designed to equip students with fundamental education and skills essential for understanding, managing and leading in various business organizations for different cases.

BBA is an undergraduate degree that provides the basics of business and non-business units. It coordinates business education with other disciplines – Finance, Accounting, Management, Economics, Taxation, Quantitative Techniques, Human Resource Management, Marketing and others.

BBA courses aim to develop rational and critical thinking, leadership, analytical ability and communication skills, which are unavoidable to make career in management field.

BBA CAREER OPPORTUNITIES

The BBA course is intended to prepare students for the business world. The syllabus provided in the BBA course by GTU will enable the students to make business decisions in an analytical and critical way for rapidly changing business environment.

In BBA course basically knowledge about principles of management is provided to the students. Since variety of subjects are covered in BBA course thus students can make career in the field of their choice.

The course of study teaches students the skills and techniques necessary to become successful leaders in the business world and become valuable contributors in many other fields.

This course is prerequisite for master degree course in the field of management.

This course is equally important to be successful business administrator, entrepreneur and leader

Building Strong Foundations for Digital Success

Family Business:

Next generation of any business unit can acquire this degree to grow family business with acquittance of latest changes in business environment.

Master Degree:

This course makes, study of post-graduation degree easy and comfortable due to familiarity of basics of management for master degree.

Other Professional Courses:

After having reasonable knowledge in the field of management student can go for other professional courses like LLB, Diploma courses or relevant branches etc.

Management Trainee:

There is arrangement with some corporate units to trainee graduate for future executive under the leadership of senior executives. This graduate can acquire training in the area of their choice or area of specialization like sales, marketing, finance, operations, or human resources.

Financial Analyst:

There are two important courses included in BBA course are Finance and Quantitative Techniques, this makes students qualified to be financial analyst. A student having inclination in this field he can go for this work. An analyst analyses financial data, prepare reports, and provide insights to support investment decisions of different stakeholders.

Marketing Expert:

Those with a specialization in marketing can work as marketing coordinators or managers, responsible for developing and implementing marketing strategies, conducting market research, and managing promotional activities to attract and retained the customers. Digital marketing is also one sub area of marketing in this area also students can make their career. Another area in marketing is brand manager, this area also can be explored.

Human Resource Expert:

In BBA third important courses is Human resource Management. BBA graduates having interest in this area of management can pursue careers as HR specialists, where they handle recruitment, employee relations, performance management, training, and development initiatives within organizations.

Operations Manager:

Graduates with expertise in operations management can pursue roles as operations managers, overseeing the production process, managing resources efficiently, and ensuring the smooth functioning of business operations.

Hotel Management:

one of the important areas of BBA is hotel management. At present time in India hotel business is very lucrative. This sector also provides good opportunities to the graduates.

Government jobs:

Students can appear in state level and/or central level competitive examinations after completion of their degree in BBA.

Consultancy work:

Due to incorporation of different managerial courses student can start his own consultancy work after having reasonable experience from well established firms of same field.

Startup:

Under policy of central government student can start his own new service oriented or manufacturing units. There are different sub areas of each specialization and students can make their career at macro level as well as micro level of specialization.
